

# Audylic ‘SmartWatch’ Folder, V0.9.5b July 2024

Changelog since version 0.9.5 March 2024

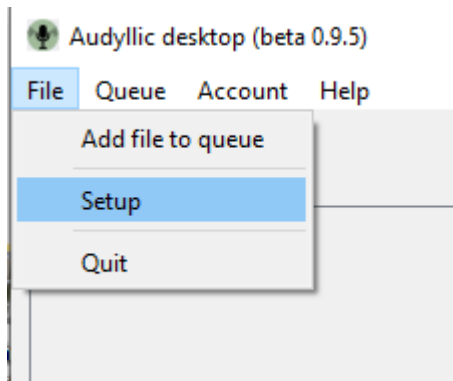

Account credit is displayed in bottom left corner of app window, app will not submit file with no credit available.

## Instructions –

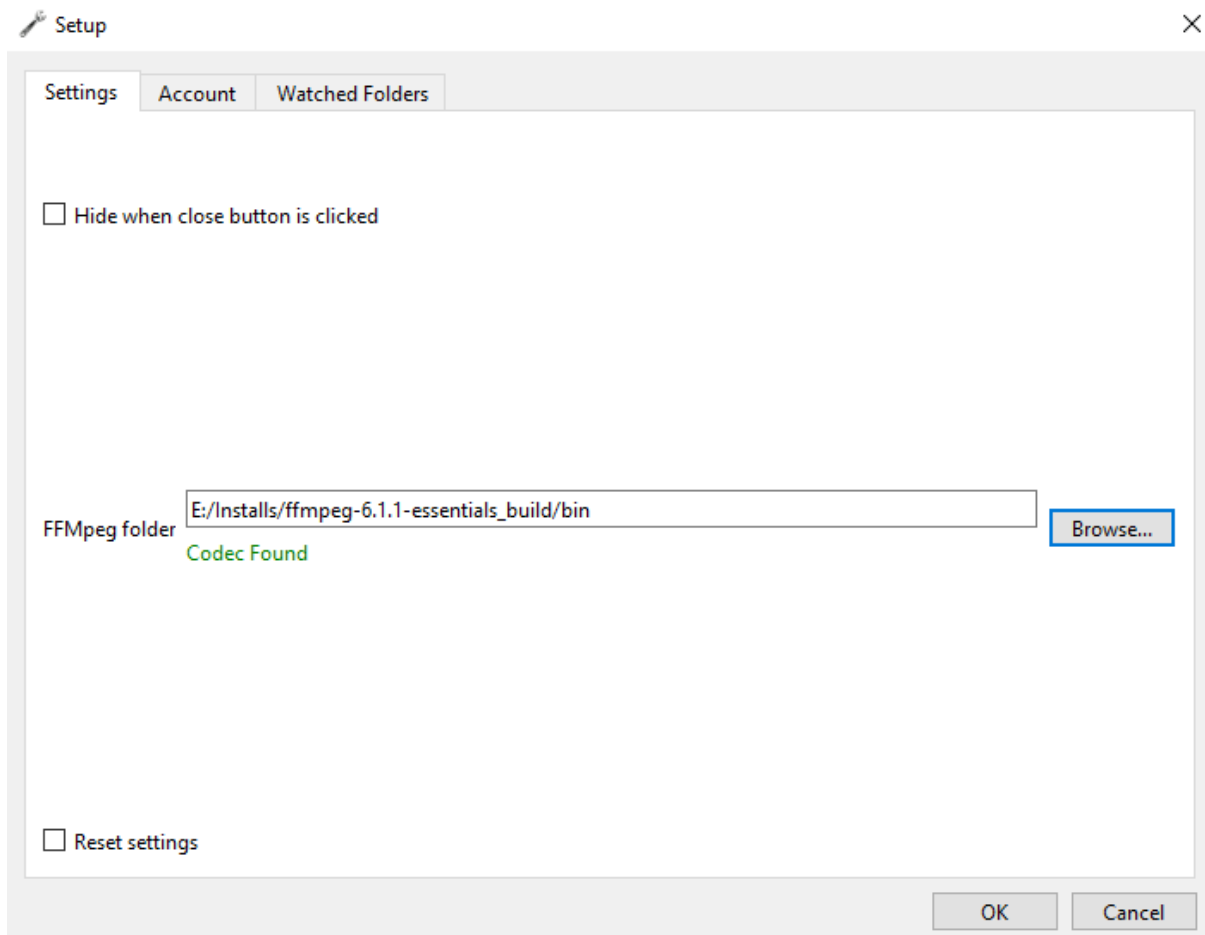

1. Download the ZIP file, save to somewhere on your PC where you can find it and extract the ‘SmartWatch’ Hot folder app for Windows from the downloads section of the Audylic website. If required, create a shortcut to the “AudylicDesktop.exe” file
2. If you have a previous version of ‘Smartwatch, you should tick the ‘reset’ option in ‘File> Settings’ and redefine your folders for watching and saving, and the preset you require. You can have multiple instances of the app if you want o use different presets for different folders.
3. Optionally, If audio processing of video files is required, download, save and extract the FFMPEG Windows package from <https://www.ffmpeg.org/download.html>
4. Open the file ‘AudylicDesktop.exe’ after it opens, you should see the following window:

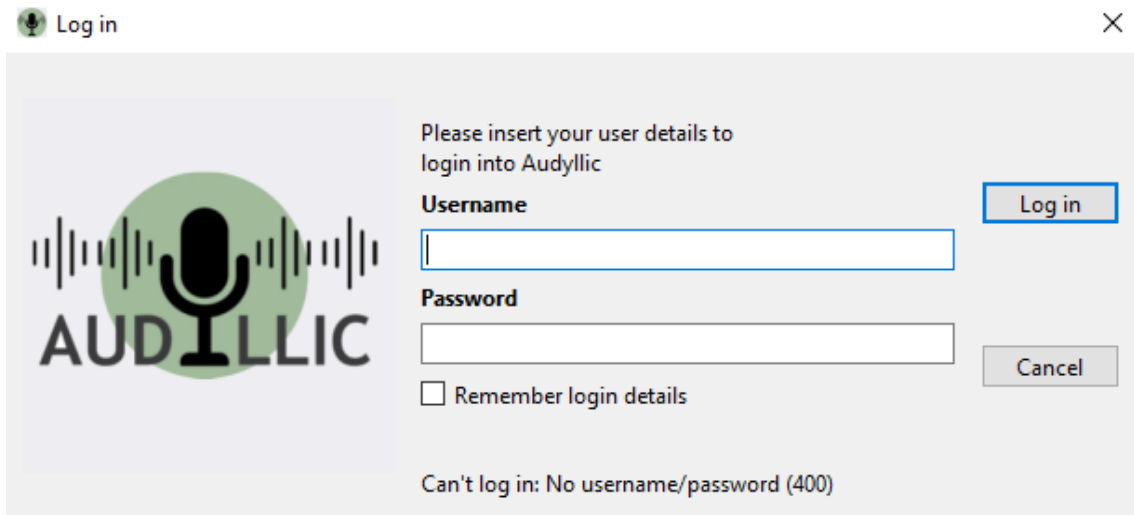

5. Click on ‘File’ > ‘Setup’

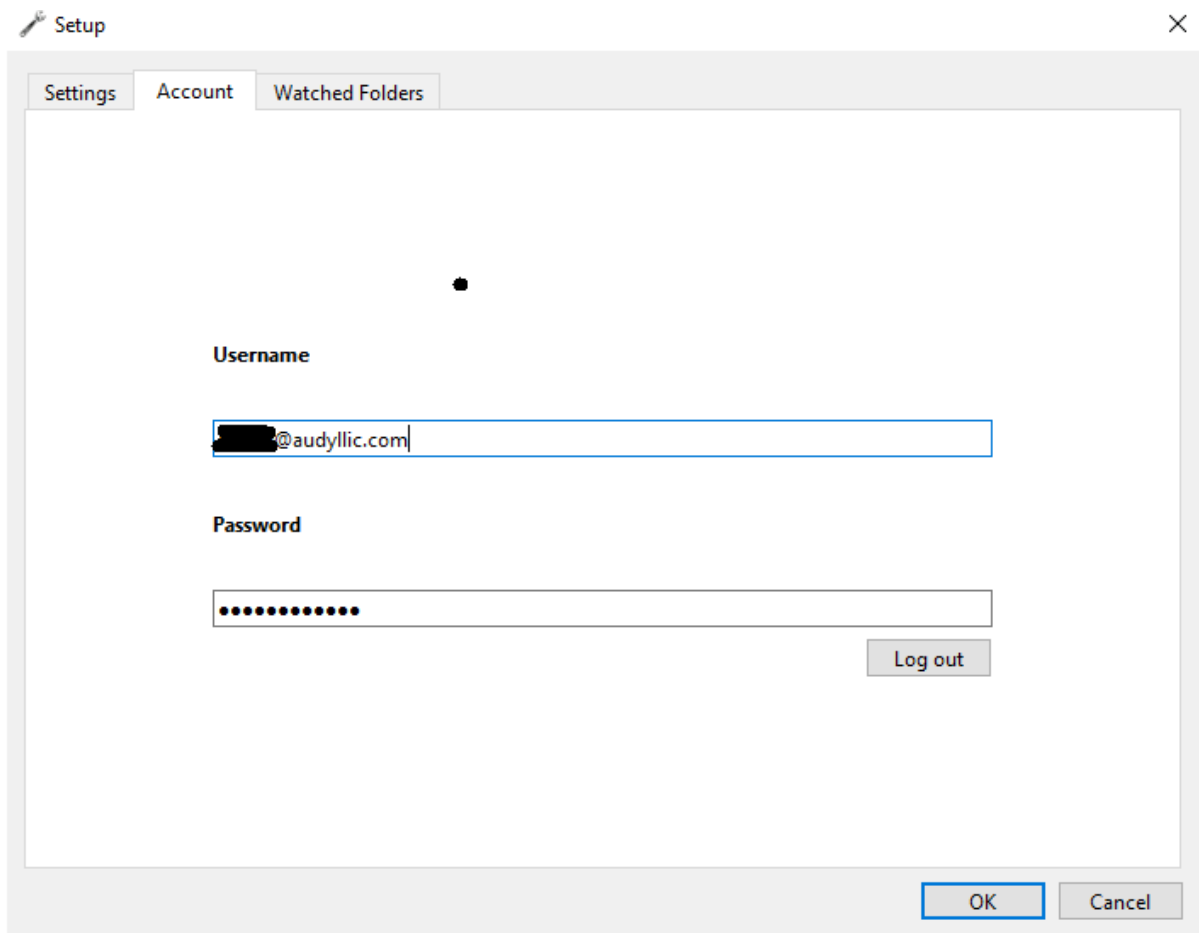

6. Browse to the location where you extracted the FFMPEG files to, open the 'bin' folder and locate ffmpeg.exe

7. Enter your Audyllic account details

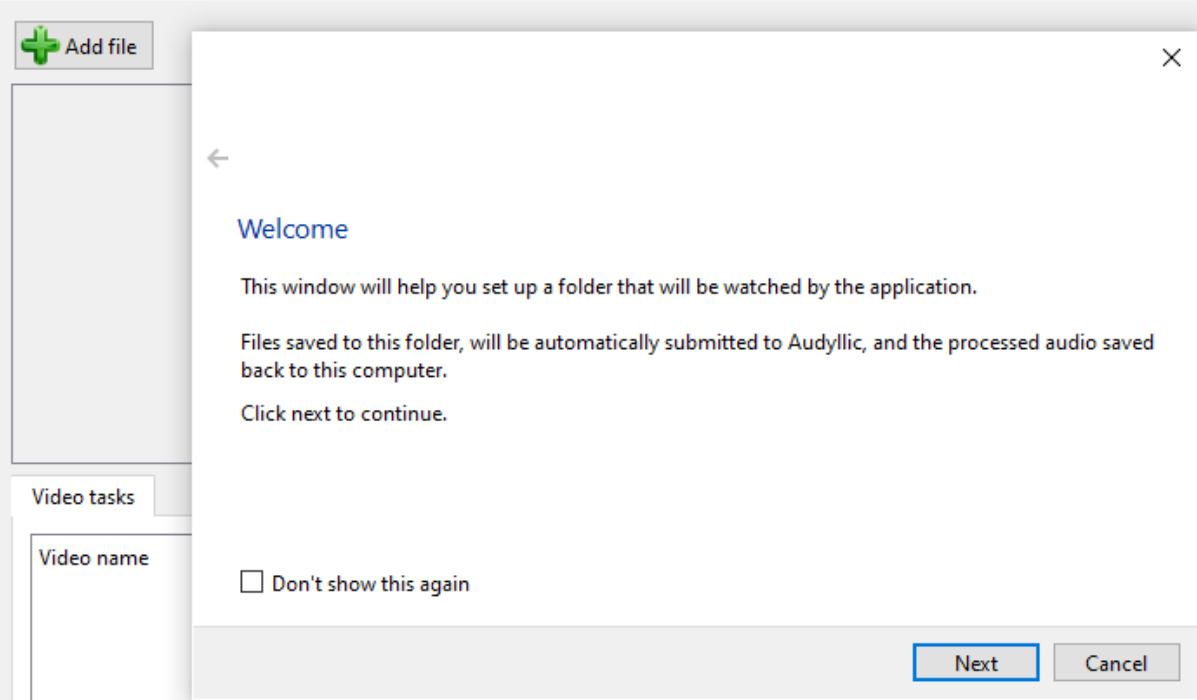

A dialog box titled "Log in" with a microphone icon and a close button (X). The dialog contains the Audyllic logo on the left, which features a microphone and the text "AUDYLLIC". On the right, there is a message: "Please insert your user details to login into Audyllic". Below this are two input fields: "Username" and "Password". To the right of the "Username" field is a "Log in" button. Below the "Password" field is a "Cancel" button. There is also a checkbox labeled "Remember login details" which is currently unchecked. At the bottom of the dialog, there is an error message: "Can't log in: No username/password (400)".

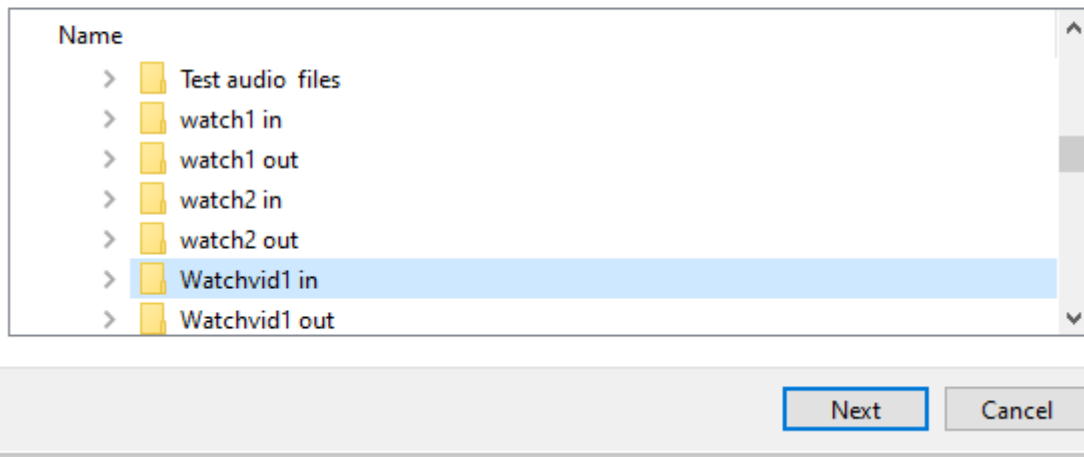

A dialog box titled "Setup" with a wrench icon and a close button (X). It has three tabs: "Settings", "Account", and "Watched Folders". The "Account" tab is selected. The main area contains a "Username" label above an input field containing "[redacted]@audyllic.com". Below that is a "Password" label above an input field filled with dots. A "Log out" button is located to the right of the password field. At the bottom right of the dialog are "OK" and "Cancel" buttons.

8. Set up the folders you want watched and to save processed files to

## Select the input folder

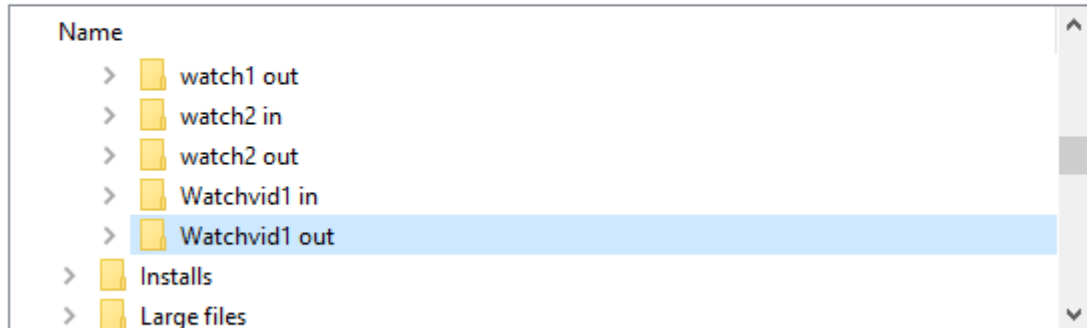

Please select the folder that will be monitored for new files

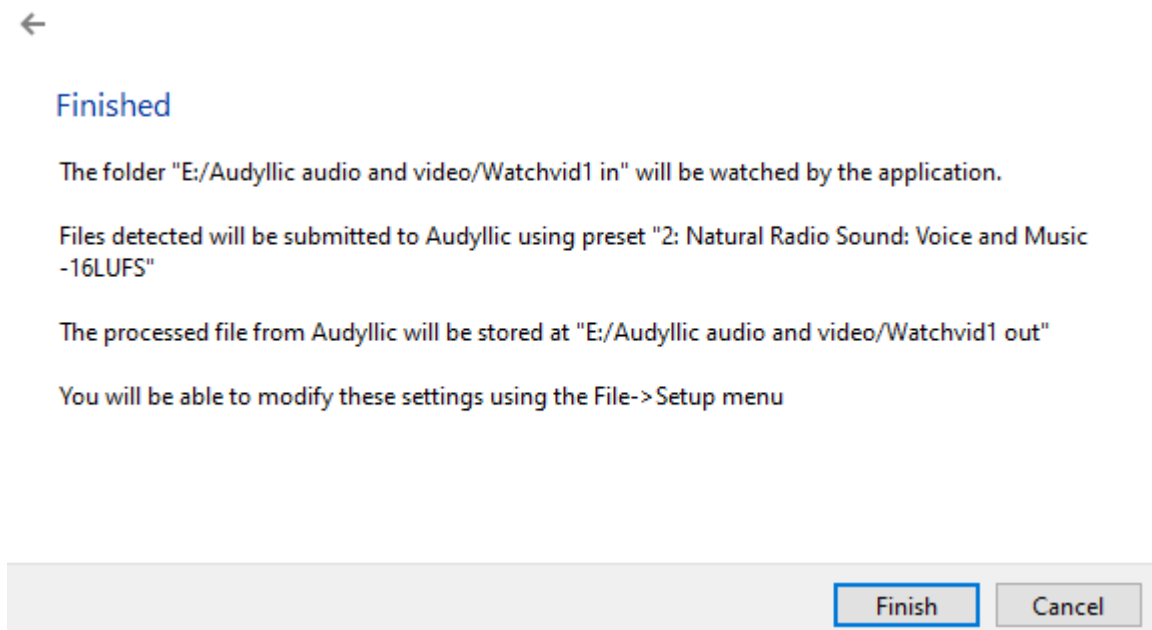

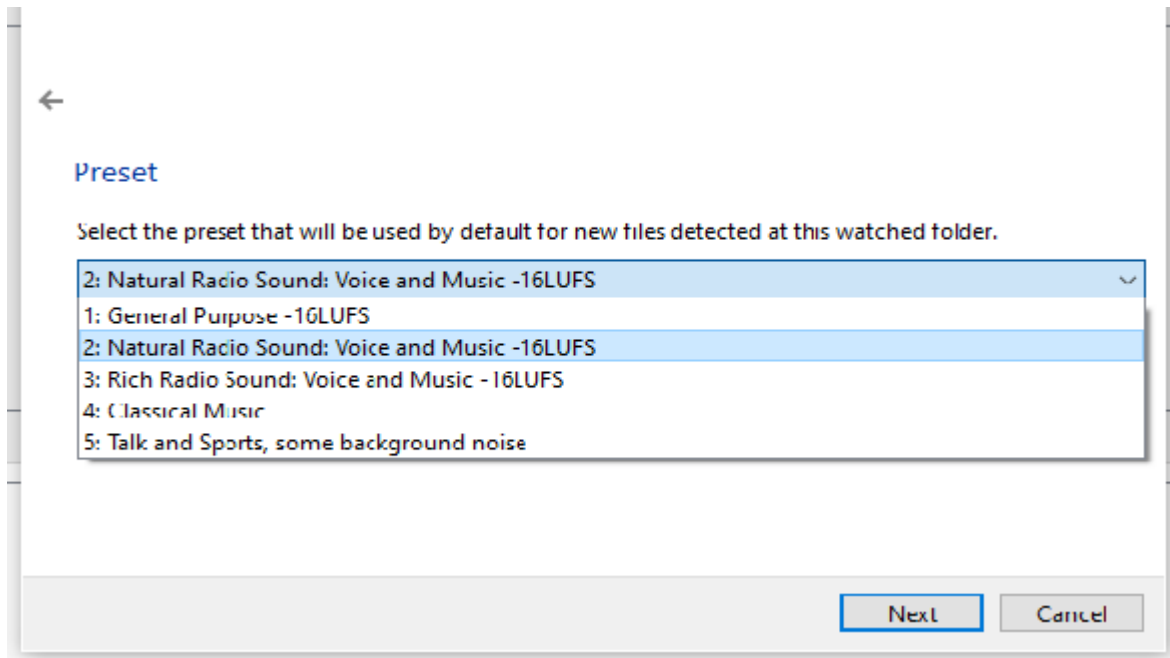

## Select the output folder

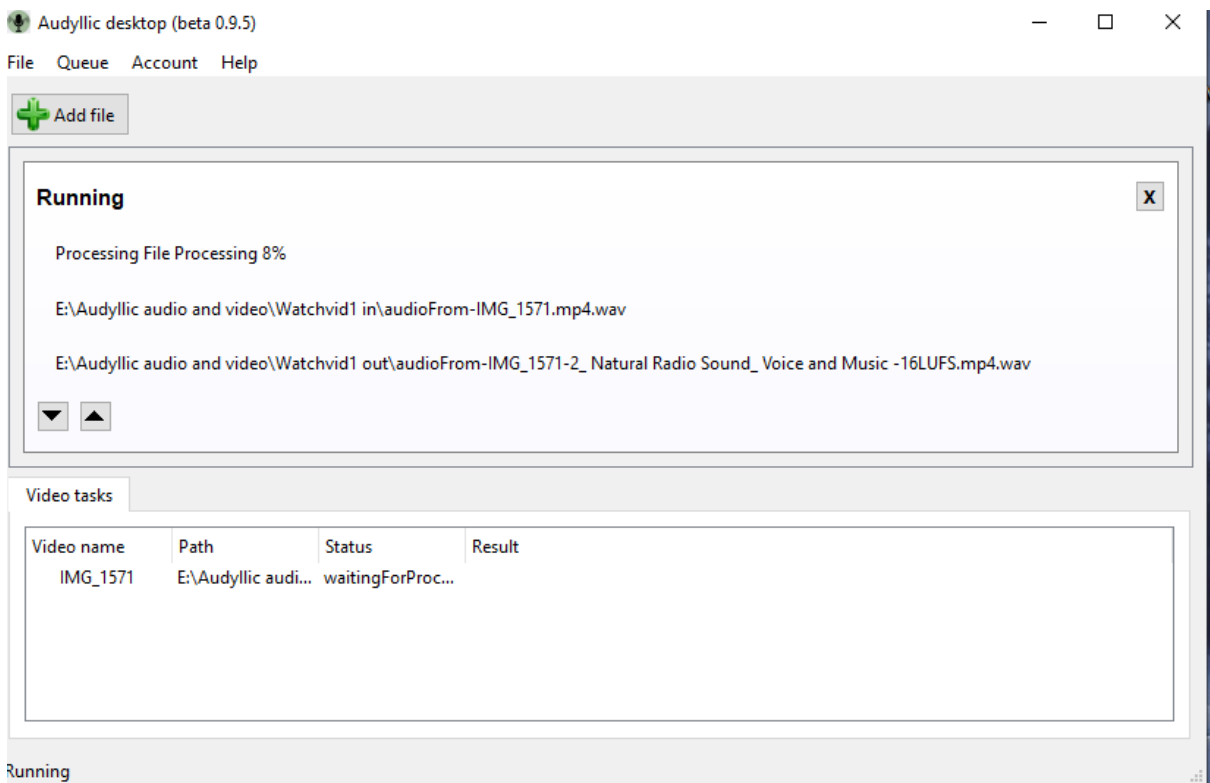

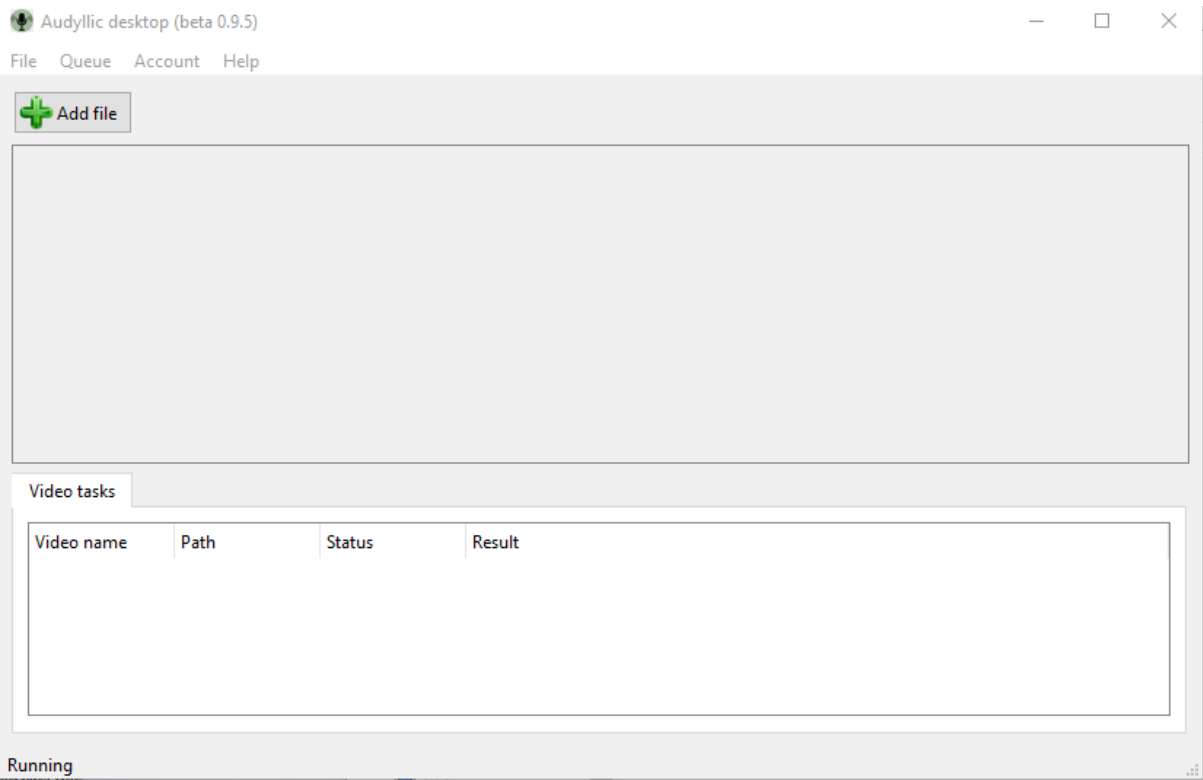

Please select the folder where the processed files from Audyllic will be stored

9. Select the preset required – if you want to use different presets for different files, open another instance of the watch folder, and choose a different preset and optionally different input and / or output folders

10. The Audylic 'Smart Watch Hot folder app will now automatically upload any new files that appear in the monitored folder.

11. There is no need to log in to your Audyllic portal web account, but if you do, you will see your files progress

To start a new job, choose a file and select "Upload Job":

File:  No file selected.

Preset:

Your jobs

#	Date	Name	Duration	Status
1552	14, Mar 2024	audioFrom-IMG_1571.mp4.wav Natural Radio Sound: Voice and Music -16LUFS	6:43	Processing <div style="width: 50%; height: 10px; background-color: #007bff; border: 1px solid #007bff;"></div>

12. If the file is a video format file, as well as your video file with processed audio, you will also get a WAV file of both pre and post processed audio – useful for an audio only version of a video podcast for example!

500GB (E:) > Audyllic audio and video > Watchvid1 in
